

Intramural Research Projects- 2023

S.N	Department	Name Of Investigator	Designation	Title Of The Projects	Duration	Status
1	Physiology	Dr.Syed Tahseen Raza	Assistant Professor	To Compare Cardio-Vascular Sympathetic Autonomic Variability In Normotensive Menstruating And Menopausal Working And Non Working Women	1 Year	Under Review
2	Food & Nutrition	Dr Arvind K Srivastava	Professor	Hepatoprotective Efficacy Of Seeds Of Bunium Persicm Against Various Hepatotoxicants Like Paracetamol, Rifampicin, Aflatoxin, Amanita Phalloides In Male Albino Rats.	1 Year	Completed
3	Food & Nutrition	Dr Arvind K Srivastava	Professor	Efficacy Of Polyherbal Formulation On Experimental Model Of Metabolic Syndrome.	1 Year	Completed
4	Ent	Dr.Rajeev Krishna Gupta	Assistant Professor	Inter Professional Approach To Clinical Skills In Ent Emergencies As An Elective Module For Medical Undergraduate Students: A Pilot Study	6 Month	Under Review
5	Physiology	Dr. Fariza Jamil	Assistant Professor	Benefits Of Yoga In Stress And Anxiety Disorders	6 Month	Under Review

				Amongst Medical Students- Questionnaire Based Study		
6	Biotechnology	Dr.Ghizal Fatima	Associate Professor	Amalgamation Of Circadian Clock Gene With Incidence Of Myocardial Infarction	6 Month	Running
7	Community Medicine	Dr.Shweta Rajpal	Assistant Professor	Study On Digital Addiction Among School Going Adolescent In Lucknow District	1 Year	Under Review
8	Cardiology	Dr Khalid Iqbal	Assistant Professor	Thiol Levels As Biomarker Of Stress And Anxiety During Covid Pandemic In Healthy Population	1 Year	Running
9	Medical Education	Dr. Savitri Thakur	Professor	Situational Analysis Of Present Socio-Cultural Behavior, Belief And Practices During Peri Natal Period In Rural Areas Of Lucknow, Uttar Pradesh	1 Year	Running
10	Biotechnology	Dr.Ghizal Fatima	Associate Professor	Rhythmic Alteration Of Chronogenetic Biomarkers As Significant Clinical Factor In Patients With Stage 1 Of Sepsis	3 Year	Under Review
11	Obst & Gynae	Dr. Shubhangi Srivastava	Assistant Professor	Neutrophil-Lymphocyte Ratio As A Biomarker Of Adverse Fetomaternal Outcome In Pre-Eclampsia	1 Year	Under Review
12	Pharmacology	Dr. Afroz Abidi	Professor	Comparison Of	1 Year	Under

				Metoclopramide With Erythromycin And Their Combination In Patients With Feed Intolerance, A Prospective Randomized Open Labeled Clinical Trial		Review
13	Obg Dep (Nursing)	Ms.Pinky Devi	Professor	Awareness And Attitude Regarding Human Milk Bank Among Parents Attending Opd At Private Hospital, Lucknow	1 Year	Running
14	Community Medicine	Dr. Ruchi Chaturvedi	Associate Professor	Exploring Musculoskeletal Disorders And Ergonomic Challenges Among Software Professionals-A Cross Sectional Study.	6 Month	Under Review
15	Biochemistry	Prof. Farzana Mahdi	Professor	Interdependence Of Regional Wall Motion Abnormalities With Gene Expression Of Enos And Ddah2 Genes Beyond Ejection Fraction In Stemi Patients	2 Year	Running
16	Microbiology	Dr.Shadma Yaqoob	Professor	A Multicentric Study To Promote Antimicrobial And Diagnostic Stewardship In The Management Of Uti: An Experiment In Mentorship To Expand The One	5 Year	Under Review

				Health Concept.		
17	Biochemistry	Dr. Tasleem Raza	Professor	Association Of Chek2, Lig4, Xpd,Xrcc4 And Xrcc6 Gene Polymorphism Of Dna Repair With Risk Of Newly Diagnosed Chronic Phase Chronic Myeloid Leukemia In North Indian Population	2 Year	Under Review
18	Dermatology	Dr. Moin Ahmad Siddiqui	Assistant Professor	A Comparative Study Of Intralesional Bleomycin Versus Tuberculin Purified Protein Derivative In The Treatment Of Cutaneous Warts: A Prospective Study From A Tertiary Care Centre.	6 Month	Under Review
19	Dermatology	Dr. Ketki	Assistant Professor	A Comparative Study Of Radiofrequency Ablation (Rfa) With Wound Suturing Versus Tca 50% In The Treatment Of Xanthlasma Palpebrum	6 Month	Under Review
