

## Intramural Research Projects- 2023

S.N	Department	Name Of Investigator	Designation	Title Of The Projects	Duration
1	Physiology	Dr. Syed Tahseen Raza	Assistant Professor	To Compare Cardio-Vascular Sympathetic Autonomic Variability In Normotensive Menstruating And Menopausal Working And Non Working Women	1 Year
2	Food & Nutrition	Dr Arvind K Srivastava	Professor	Hepatoprotective Efficacy Of Seeds Of Bunium Persicm Against Various Hepatotoxicants Like Paracetamol, Rifampicin, Aflatoxin, Amanita Phalloides In Male Albino Rats.	1 Year
3	Food & Nutrition	Dr Arvind K Srivastava	Professor	Efficacy Of Polyherbal Formulation On Experimental Model Of Metabolic Syndrome.	1 Year
4	ENT	Dr. Rajeev Krishna Gupta	Assistant Professor	Inter Professional Approach To Clinical Skills In Ent Emergencies As An Elective Module For Medical Undergraduate Students: A Pilot Study	6 Month
5	Physiology	Dr. Fariza Jamil	Assistant Professor	Benefits Of Yoga In Stress And Anxiety Disorders Amongst Medical Students- Questionnarre Based Study	6 Month
6	Biotechnology	Dr. Ghizal Fatima	Associate Professor	Amalgamation Of Circadian Clock Gene With Incidence Of Myocardial Infarction	6 Month

<b>7</b>	Community Medicine	Dr. Shweta Rajpal	Assistant Professor	Study On Digital Addiction Among School Going Adolescent In Lucknow District	1 Year
<b>8</b>	Cardiology	Dr Khalid Iqbal	Assistant Professor	Thiol Levels As Biomarker Of Stress And Anxiety During Covid Pandemic In Healthy Population	1 Year
<b>9</b>	Medical Education	Dr. Savitri Thakur	Professor	Situational Analysis Of Present Socio-Cultural Behavior, Belief And Practices During Peri Natal Period In Rural Areas Of Lucknow, Uttar Pradesh	1 Year
<b>10</b>	Biotechnology	Dr. Ghizal Fatima	Associate Professor	Rhythmic Alteration Of Chronogenetic Biomarkers As Significant Clinical Factor In Patients With Stage 1 Of Sepsis	3 Year
<b>11</b>	Obst & Gynae	Dr. Shubhangi Srivastava	Assistant Professor	Neutrophil- Lymphocyte Ratio As A Biomarker Of Adverse Fetomaternal Outcome In Pre-Eclampsia	1 Year
<b>12</b>	Pharmacology	Dr. Afroz Abidi	Professor	Comparison Of Metoclopramide With Erythromycin And Their Combination In Patients With Feed Intolerance, A Prospective Randomized Open Labeled Clinical Trial	1 Year
<b>13</b>	Obg Dep (Nursing)	Ms.Pinky Devi	Professor	Awareness And Attitude Regarding Human Milk Bank Among Parents Attending Opd At Private Hospital, Lucknow	1 Year

<b>14</b>	Community Medicine	Dr. Ruchi Chaturvedi	Associate Professor	Exploring Musculoskeletal Disorders And Ergonomic Challenges Among Software Professionals-A Cross Sectional Study.	6 Month
<b>15</b>	Biochemistry	Prof. Farzana Mahdi	Professor	Interdependence Of Regional Wall Motion Abnormalities With Gene Expression Of Enos And Ddah2 Genes Beyond Ejection Fraction In Stemi Patients	2 Year
<b>16</b>	Microbiology	Dr.Shadma Yaqoob	Professor	A Multicentric Study To Promote Antimicrobial And Diagnostic Stewardship In The Management Of Uti: An Experiment In Mentorship To Expand The One Health Concept.	5 Year
<b>17</b>	Biochemistry	Dr. Tasleem Raza	Professor	Association Of Chek2, Lig4, Xpd,Xrcc4 And Xrcc6 Gene Polymorphism Of Dna Repair With Risk Of Newly Diagnosed Chronic Phase Chronic Myeloid Leukemia In North Indian Population	2 Year
<b>18</b>	Dermatology	Dr. Moin Ahmad Siddiqui	Assistant Professor	A Comparative Study Of Intralesional Bleomycin Versus Tuberculin Purified Protein Derivative In The Treatment Of Cutaneous Warts: A Prospective Study From A Tertiary Care Centre.	6 Month

<b>19</b>	Dermatology	Dr. Ketki	Assistant Professor	A Comparative Study Of Radiofrequency Ablation (Rfa) With Wound Suturing Versus Tca 50% In The Treatment Of Xanthlasma Palpebrum	6 Month
