

2551-A

Diploma in Obstetrics and Gynaecology

(DGO) Examination, 2010

Paper - II

(Obstetrics)

Time : Three Hours]

Maximum Marks :100

Note:- Attempt all questions.

1. Discuss the etiopathogenesis of preeclampsia and eclampsia and management of eclampsia specifying merits and demerits of drugs used in management of eclampsia. 30
2. (a) Discuss the management of labour in a patient with rheumatic heart disease. 15
- (b) Discuss the management of breech presentation during pregnancy and labour. 15

[P. T. O.

H-2551

2

3. Write short notes on: 10 each
 - (a) Preconceptional counselling and antenatal care.
 - (b) Antenatal screening of down syndrome.
 - (c) Management of shoulder dystocia.
 - (d) Newer modalities in management of post partum haemorrhage (PPH).

H

2550-A

**Diploma in Obstetrics and Gynaecology
(DGO) Examination, 2010**

Paper - I

**(Basic Science, Anatomy and Physiology,
Embryology, Neonatology)**

Time : Three Hours]

Maximum Marks :100

1. Describe physiological changes in pregnancy. 20
2. Describe the course of ureter. What are the causes of ureteric injuries and how will you manage a case of ureteric injury? 20
3. Write short notes on: 15 each
 - (a) Enumerate Mullerian malformations and discuss their obstetric consequences.
 - (b) Neonatal Jaundice.
 - (c) Perinatal Mortality.
 - (d) Role of ultra sound in obstetrics.

H

2552

**DIPLOMA IN OBSTETRICS &
GYNAECOLOGY (DGO)
EXAMINATION, 2009**

Paper - III

(Gynaecology & Family Planning)

Time : Three Hours]

[Maximum Marks : 100

1. Discuss the causes of postmenopausal bleeding and management of carcinoma body uterus. 30
2. (a) Discuss different screening modalities for carcinoma cervix. 15
(b) Medical management of endometriosis.
3. Write short notes on : 10
 - (a) HRT and it's current status.
 - (b) Detail of vaginal discharge.
 - (c) Classification of ovarian Tumor.
 - (d) Emergency contraception.

H

2551

**DIPLOMA IN OBSTETRICS &
GYNAECOLOGY (DGO)
EXAMINATION, 2009**

**Paper - II
(Obstetrics)**

Time : Three Hours] [Maximum Marks : 100

Note :- Attempt **all** questions.

1. Discuss the etiology and management of preterm labour and premature rupture of membrane. 30
2. (a) Describe the causes of anaemia during pregnancy. It's effect on pregnancy and pregnancy outcome. 15
(b) . Discuss the methods of induction of ovulation.
3. Write short notes on : 10
 - (a) Partogram.
 - (b) IUI.
 - (c) HELLP syndrome.
 - (d) Maternal mortality.

H

2550

**DIPLOMA IN OBSTETRICS &
GYNAECOLOGY (DGO)
EXAMINATION, 2009**

Paper - I

**(Basic Science, Anatomy & Physiology,
Embryology, Neonatology)**

Time : Three Hours] [Maximum Marks : 100

Note :- Attempt all questions.

1. What are the physiological changes in cardiovascular system during pregnancy? 20
2. Write down the development and also describe various malformation of female reproductive organs. 20
3. Write down short notes on : 15
 - (a) Support of genital tract.
 - (b) Apgar score.
 - (c) Non stress test.
 - (d) Luteal phase defect.

H

2552-A

Diploma in Obstetrics and Gynaecology

(DGO) Examination, 2010

Paper - III

(Gynaecology and Family Planning)

Time : Three Hours] Maximum Marks :100

1. Discuss the methods of early detection of carcinoma cervix. Describe staging, clinical examination and management of a case of carcinoma cervix. 30
2. (a) Describe types, prevention and treatment of sexually transmitted diseases. 15
- (b) Discuss benefits and risks of hormone replacement therapy (HRT) in menopause. 15

[P. T. O.]

H-2552

2

3. Write short notes on: 10 each
- (a) Polycystic ovarian syndrome.
 - (b) Recent advances in invitro fertilization.
 - (c) Hormonal contraceptives.
 - (d) Medical abortion-Pros and Cons.

H

4539

D. G. O. Examination, 2011

GYNAECOLOGY AND OBSTETRICS

Paper I

**(Basic Science, Anatomy and Physiology
Embryology Neonatology)**

Time : Three Hours]

[Maximum Marks : 100

Note : Attempt all questions. All questions carry equal marks.

1. Describe the pathophysiological changes in pre-eclampsia.
2. What are the causes of Galactorrhoea? Discuss the management of microprolactinoma in 20 years old infertile patient and in pregnancy.
3. Describe management of Rh iso-immunisation.
4. Enumerate the causes and management of vault prolapse.

[P. T. O.

H-4539

2

5. What is ectopic pregnancy? Discuss its management.
6. Outline clinical application of vaginal cytology in pregnancy.
7. Describe the prenatal diagnosis of chromosomal anomalies in a fetus.
8. What is endometriosis? Discuss its management.
9. Give an account of changes in fetal circulation immediately after the birth of baby.
10. Enumerate applications of colour doppler in obstetrics with reference to placental insufficiency.

100

H

4540

D. G. O. Examination, 2011

GYNAECOLOGY AND OBSTETRICS

Paper II

(Obstetrics)

Time : Three Hours] [Maximum Marks : 100

Note : Attempt all questions. All questions carry equal marks.

1. What are the causes of abortion in second trimester? Discuss.
2. What are the causes of occipitoposterior position? Discuss its management in second stage.
3. Discuss management of primigravida with RHD.
4. What are the criteria for the diagnosis of Residual Trophoblastic disease? Discuss its management.

[P. T. O.

H-4540

2

5. Enumerate types of epithelia ovarian tumors. Discuss principles of management of epithelial ovarian tumor stage IIIc.
6. What is DUB? Discuss.
7. What is bacterial vaginosis? Discuss its management.
8. Discuss management of pregnancy with multiple fibroids.
9. Discuss management of Hirsutism in 18 years old girl with PCOD.
10. Discuss pregnancy tests.

100

H

4541

D. G. O. Examination, 2011

GYNAECOLOGY AND OBSTETRICS

Paper III

(Gynaecology and Family Planning)

Time : Three Hours]

[Maximum Marks : 100

Note : Attempt all questions. All questions carry equal marks.

1. What are the causes of uterine prolapse? Discuss management of III degree prolapse.
2. Describe the selection criteria and explain the intra-partum monitoring of vaginal birth after caesarean section.
3. Discuss diagnosis of CIN.
4. Discuss the ovulation changes and also its role in designing pregnancy tests.

[P. T. O.

H-4541

2

5. Discuss management of vertical transmission of HIV pregnancy.
6. Give WHO criteria for Semen Analysis. How will you treat a 32 years old male with oligoteratoasthenozoospermia?
7. Discuss management of breech presentation.
8. Discuss management of UTI in pregnancy.
9. Discuss MTP.
10. Describe management of iron deficiency anemia.

H

3134

D. G.O. Examination, 2012

Paper - I

Time : Three Hours]

[Maximum Marks

: 100

Note : Attempt all questions.

1. Mention factors responsible for post partum Hemorrhage. Write about the recent advances in the management of PPH. (10+10)
2. What are the causes of preterm labor? Which methods are available for its diagnosis? Write in brief about the management of a primi Gravida having preterm labor at 28 weeks of gestation. (6+6+8)
3. Describe NYHA Classification. Describe the management of a woman in third trimester of pregnancy with Rheumatic mitral stenosis Discuss the contraceptive options. (6+8+6)

[P. T. O.

H-3134

2

4. Write short notes on any **four** : (10+10+10+10)
 - (a) Iron requirement in Pregnancy
 - (b) Active management of third stage of labor
 - (c) Post partum IUCD
 - (d) Immunizations during pregnancy
 - (e) Methods of induction of labor

H

3135
P. G. Diploma in D. G. O.
Examination, 2012

OBSTETICS

Paper - II

Time : Three Hours] [Maximum Marks : 100

Note :- Attempt all questions.

1. What are the cardio vascular changes during pregnancy? How will you manage a patient of rheumatic heart disease in labour. 30
2. (a) What is PPH? Enumerate the causes of PPH. Describe medical and conservative surgical methods used to manage atonic PPH. 15
(b) Anti hypertensive therapy in pregnancy. 15
3. Write short notes on : 10 Each
 - (a) Post partum intra uterine device insertion.
 - (b) Anti retroviral therapy in pregnancy.
 - (c) Perinatal mortality.
 - (d) Prenatal diagnosis.

H

3136

**P. G. Diploma in D. G. O.
Examination, 2012**

GYNAECOLOGY

Time : Three Hours] [Maximum Marks : 100

Note :- Attempt all questions.

1. What are the causes of recurrent pregnancy loss?
Discuss the management of a 36 years old woman
with three first trimester abortions. 20
2. What are the causes of chronic pelvic pain? How
will you investigate and manage a case of chronic
pelvic pain? 20
3. What are the different modalities for primary and
secondary prevention of cancer cervix? 20
4. Write short notes on 10x4=40
 - (a) Puberty menorrhagia.
 - (b) Vaginal contraceptive ring.
 - (c) Jumar markers for ovarian neoplasia.
 - (d) OHSS.

H

5651

P. G. Diploma Examination, 2013

OBSTETRICS AND GYNAECOLOGY

Paper - I

**(Basic Science, Anatomy and Physiology,
Embryology and Neonatology)**

Time : Three Hours] [Maximum Marks : 100

Note :- Attempt all questions.

1. Define menopause. What are the causes of post menopausal uterine bleeding? Write the surgical staging of carcinoma endometrium. 3, 7, 10
2. Define infertility. How will you investigate the couple with primary infertility? Write the management of anovulatory infertility. 3, 10, 7
3. Write in brief about the following :
 - (a) Puberty menorrhagia 7
 - (b) H. P. V. Vaccine 6
 - (c) Ultrasonography in pelvic masses 7

[P. T. O.

5651

2

4. Write short notes on the following :
 - (a) Bacterial vaginosis 7
 - (b) Atrophic vaginitis 7
 - (c) Postpartum I. U. C. O. 6
5. Write about the following :
 - (a) Cervical cancer screening
 - (b) Drosperiaone
 - (c) Medical management of *Tubal* pregnancy

H

5652

P. G. Diploma Examination, 2013

OBSTETRICS AND GYNAECOLOGY

Paper - II

(Obstetrics)

Time : Three Hours]

[Maximum Marks : 100

Note :- Answer all questions.

1. Discuss a symptomatic bacteria in :
 - (a) Relation to pregnancy
 - (b) Management of pre-term, premature rupture of membranes.
2. Discuss how to investigate an :
 - (a) Infertile couple
 - (b) Describe the management of anovulatory infertility.

5652

2

3. Write notes on :

- (a) Trachoma ovary
- (b) PNDT Act
- (c) Asphyxia neonatorum

[P. T. O.

H

5653

P. G. Diploma Examination, 2013

OBSTETRICS AND GYNAECOLOGY

Paper - III

(Gynaecology and Family Planning)

Time : Three Hours]

[Maximum Marks : 100

Note :- Attempt all the five questions. Every question has carry equal marks.

1. Write down the lymphatic drainage of pelvis with diagram. Discuss its clinical importance. 20
2. Discuss the pathophysiology of pre-eclampsia. 20
3. Discuss the recent advances in contraceptive technology. 20
4. Write in brief on the following : 10 each
 - (a) Metropathia haemorrhagica
 - (b) Polycystic ovarian syndrome

[P. T. O.

5653

2

5. Write short notes on the following : 5 each

- (a) Androgen insensitivity syndrome
- (b) TCRE
- (c) GnRH analogue
- (d) Gartner duct cyst
