M. B. B. S. Examination, 2013

(Third Professional)

SURGERY INCLUDING ANAESTHESIA

Time : Three Hours ] [ Maximum Marks : 60

Note :- Attempt all questions.

PART - A

1. Discuss the differential diagnosis of breast lump.  
Write briefly the management of early/operative breast carcinoma. 15
2. Write short notes on the following :
  - (a) Fistula in Ano
  - (b) Psuedo pancreatic cyst 15
  - (c) Metabolic acidosis
  - (d) 30% superficial burn
  - (e) Cold abscess

[ P. T. O.

5522

2

PART - B

3. Describe the management of head injury in 70 year male patient. 15
4. Write short notes on :
  - (a) Epidural anaesthesia
  - (b) Hydatid cyst 15
  - (c) Meckels diverticulum
  - (d) Classification of general anaesthesia drugs

(Third Professional) (Part-II)

**GENERAL SURGERY**

**Paper - IV**

(General Surgery Including Anesthesiology,  
Dental Disease and Radiology)

Time : Three Hours ] [ Maximum Marks : 60

**Note :-** Answer all questions. All questions carry equal marks.

1. Write in detail principles of wound healing. How keloid is different from hypertrophic scar? 15
2. Write in short: 15
  - (a) Hernio plasty
  - (b) Imperforate anus

[ P. T. O.

H-4385

2

3. Write in short: 15
  - (a) Epidural anesthesia
  - (b) Suceinyl choline
4. Write in short Aetio - Pathogenesis and management of: 15
  - (a) Hepatic hydatid cyst.
  - (b) A branchial cyst sinus and branchiogenic carcinoma.

M. B. B. S. (Part II) Examination, 2011

(Third Professional)

SURGERY INCLUDING A SECTION ON  
ORTHOPAEDIC SURGEON

Paper III

Time : Three Hours ] [ Maximum Marks : 60

Note : Attempt all questions. Use separate answer  
books for Section A and Section B.

**SECTION A**

1. Classify haemorrhage. Discuss briefly the treatment  
of Haemorrhage. 10
2. Discuss the pathology, the clinical features and  
management Wilms' Tumor. 10
3. Write short notes on : 10
  - (i) Basal cell carcinoma

[ P. T. O.

H-4384

2

- (ii) Thyroglossal cyst
- (iii) Crush Syndrome
- (iv) Warthinus Tumour

**SECTION B**

4. Discuss the aetiology, clinical features,  
complications and management of supracondylar  
fractures of humerus. 10
5. What is a pathological fracture? Outline briefly how  
you will investigate and manage an elderly patient  
admitted with a pathological fracture of the shaft of  
femur. 10
6. Write short notes on :
  - (i) Non-union
  - (ii) Trigger finger
  - (iii) Arthroplasty
  - (iv) Thomas splint

M. B. B. S. (Part II) Examination, 2011

(Third Professional)

SURGERY INCLUDING ANAESTHESIA

Paper IV

Time : Three Hours ] [ Maximum Marks : 60

Note : Separate answer books must be used for  
Section A and Section B.

**SECTION A**

1. A 40 year old man was brought to the hospital with 50% partial thickness burns with deep circumferential burns of right upper limb. Discuss the management and complications. 10
2. Write briefly on : 10
  - (a) Appendicular lump
  - (b) Majolins ulcer

[ P. T. O.

H-4385

2

- (c) Mesenteric cyst
- (d) Gas gangrene

3. Discuss the clinical features and the management of perforated duodenal ulcer. 10

**SECTION B**

4. Discuss the aetiology, clinical features, investigations management and complications of Acute Pancreatitis. 10
5. Write briefly on : 10
  - (a) Management of Inoperable Carcinoma Breast
  - (b) Fistula in ano
  - (c) Stages of general anaesthesia
  - (d) Epidural anaesthesia
67. What are causes of acute retention of urine? Describe the clinical features, investigation and treatment of benign enlargement of the prostate.

**(Third Professional)**

**GENERAL SURGERY & ORTHOPAEDICS**

Time : Three Hours ]

[ Maximum Marks : 60

**Note :-** Attempt all questions. All questions carry equal marks.

**SECTION-A**

1. What are the causes of shock? How you will manage point of haemorrhagic shock?
2. Write short notes on :
  - (a) C. V. P. (Central Venous Pressure)
  - (b) Subdural haematoma
  - (c) Dialysis
  - (d) Tension pneumothorax
  - (e) Pilonidal sinus
3. What are the causes of C. B. D. obstruction? How you will manage carcinoma head pancreas?

[ P. T. O.

3036

2

**SECTION-B**

1. Describe the management protocol of fresh traumatic fracture neck of femur in a 40 years male patients.
2. Discuss the management of osteogenic sarcoma lower end femur.
3. Write short notes on :
  - (b) Enumerate the complications of fracture supracondylar humerus.
  - (c) CTEV shoe.

M. B. B. S. (Part II) Examination, 2012

(Third Professional)

SURGERY INCLUDING ANAESTHESIA

Time : Three Hours ] [ Maximum Marks : 60

Note :- Attempt all questions.

**SECTION-A**

1. Classify haemorrhage. Discuss the clinical features, management and sequelae of splenic rupture. 20
2. Write short notes on : 2½x4=10
  - (a) Burst abdomen
  - (b) Fibro adenoma
  - (c) Haemorrhoids
  - (d) Radiation burns

**SECTION-B**

3. Discuss the aetiology, investigations and management of surgical jaundice. 20

[ P. T. O.

3037

2

4. Write briefly on : 2½x4=10
  - (a) Pilonidal sinus
  - (b) Malignant melanoma
  - (c) Postoperative complications of general anaesthesia
  - (d) Classification of local anaesthetics

M. B. B. S. Examination, 2013

(Third Professional)

SURGERY INCLUDING ORTHOPAEDICS

Time : Three Hours ] [ Maximum Marks : 60

Note :- Attempt all questions.

SECTION-A

1. Enumerate the causes of lump in right hypochondrium. Discuss the clinical features and management of carcinoma Gall Bladder. 10
2. Write short notes on : 10
  - (a) Medical expulsive therapy of ureteric stone
  - (b) Operative suture material
  - (c) Undescended testis
  - (d) Septic shock
  - (e) Coagulation factors

5521

2

3. Discuss the differential diagnosis of intestinal obstruction in 50 year male patient. How you will manage the sigmoid volvulus? 10

SECTION-B

4. Describe causes, pathoanatomy of club foot. How will you manage a case of club foot in a 8 year old child? 10
5. Enumerate the causes of pottiparaplegia. How will you manage a case of pottiparaplegia? 10
6. Write short notes on : 10
  - (a) Short wave diathermy.
  - (b) Radiological findings of osteogenic sarcoma.

[ P. T. O.

Examination, 2013

**SURGERY (PART - A)**

Orthopaedics (Part B)

Paper - I

*Time Allowed : Three Hours*

*Maximum Marks : 60*

**PART - A**

- Q. 1. Write short notes on any two : 5×2=10
- (a) Paget's disease of breast
  - (b) Amoebic liver abscess
  - (c) Hydrocele
- Q. 2. Answer any one : 10×1=10
- (a) What is advanced trauma life support (ATLS) ? Define and enumerate the various types of shock and discuss the assessment, investigations and treatment of a patient with haemorrhagic shock.

5521

P.T.O.

**(2)**

- (b) Define burns and mention its types. Explain the pathophysiology of Burns shock. Discuss the management of a burns patient.
- Q. 3. Write short notes on any two : 5×2=10
- (a) Principles of Autoclaving
  - (b) Buerger's disease
  - (c) PET

**PART - B**

- Q. 1. Write short notes on any two : 5×2=10
- (a) Claw hand
  - (b) Shoulder Arc Syndrome
  - (c) Posterior dislocation of Hip
- Q. 2. Answer any one : 10×1=10
- (a) Discuss etio-pathogenesis, clinical features, investigations and management of tuberculosis of Hip.
  - (b) Describe the clinical features and management of Supracondylar fracture of femur.
- Q. 3. Write short notes on any two : 5×2=10
- (a) CTEV
  - (b) Acute Osteomyelitis
  - (c) Tennis elbow
  - (d) Giant cell tumour

**GENERAL SURGERY**

(Including Anaesthesiology Dental Disease &  
Radiology)

Paper - II

*Time Allowed : Three Hours*

*Maximum Marks : 60*

**PART - A**

- Q. 1. Write short notes on any two : 5×2=10
- (a) Adamantinoma of jaw
  - (b) Complications of thyroidectomy
  - (c) Complications of Spinal anaesthesia
- Q. 2. Answer any one : 10×1=10
- (a) What is Ochsner sherrren Regimen ? Discuss the etio-pathogenesis, clinical features, differential diagnosis and management of Acute Appendicitis.
  - (b) What is peptic ulcer disease ? Enumerate the causes of peptic ulcer disease. Differentiate between gastric and duodenal ulcer. Mention

**5522**

**P.T.O.**

**(2)**

the complications of peptic ulcer. Discuss the clinical features, investigations and the management of perforated peptic ulcer.

- Q. 3. Write short notes on any two : 5×2=10
- (a) Thyroglossal cyst
  - (b) TB lymphadenitis
  - (c) GIST (Gastro-Intestinal Stromal Tumours)

**PART - B**

- Q. 1. Write short notes on any two : 5×2=10
- (a) Barrett's esophagus
  - (b) ANDP
  - (c) FAST
- Q. 2. Answer any one : 10×1=10
- (a) Enumerate causes of leg ulcers. Discuss the management of patient having varicose veins with venous ulcer.
  - (b) Discuss the pathophysiology, clinical features, investigations and management of Acute Pancreatitis.
- Q. 3. Write short notes on any two : 5×2=10
- (a) Premalignant lesions of the oral cavity
  - (b) Fistula in ano
  - (c) Haemothorax
